Funds are requested to assist with the costs of telephone for the crisis lines to meet the needs of sexual assault victims. Telephone expense for the crisis lines is necessary to meet the needs of victims of sexual assault, and average approximately \$600 per month. Grant funds are requested to pay approximately 10% of the telephonic costs, lines averaging approximately \$600 per month. Grant funds are requested to pay 10% of the estimated cost.

B) Its relationship to project.
Telephone expenses are for the crisis intervention program which is the initial contact for victims of sexual assault by providing immediate crisis intervention, counseling, and shelter referrals. The project also provides information and referral, and offers a coordination of services for victims receiving services not only through the Wellspring but also other appropriate community resources throughout Northeast Louisiana.

PROGRAM NARRATIVE

A. PROBLEM DEFINITION

1. Identify the nature and magnitude of the specific problem existing in your particular community that needs to be addressed through this proposed project. Document the need, not the symptoms or solutions. Be sure to include current valid local data or state data, if local data is not available, to support the justification. Give the source and date of your information. State the needs of your agency and the needs of the victims in your area as related to this problem and justify the need for the proposed project.

Rape in Louisiana: A Report to the State (2003) indicates that nearly 225,000 or over 1 out of every 8 adult women in Louisiana has been the victim of forcible rape during her lifetime. Over 13% of women in Ouachita Parish have been raped, according to the same report. The number of law enforcement calls for NELA for 2009 (based in part on estimates) was 183, a rate of .57 per 1,000 persons over age 12 (based on 2009 Census pop. ests). That's nearly twice the 2008 U.S. average rate of reported sexual assaults of .3 per 1,000 persons over age 12 (U.S. BJS, 2008). In 2004, The News-Star, Monroe's local newspaper, cited a study ranking our city as the third-worst small city nationwide for crime, trailing only Topeka, Kansas, and Pine Bluff, Arkansas. The same study named Monroe the most violent city in Louisiana.

The FBI Uniform Crime Report's Crime Clock 2004 indicates that in our nation, one forcible rape is committed every 5.6 minutes. The numbers are even more alarming when the number of forcible rapes in America is estimated to be even greater than those published in the FBI Uniform Crime Reports, according to Rape in America (April 23, 1992) prepared by the National Victim Center and the Crime Victims Research and Treatment Center of the Medical University of South Carolina in Charleston. These higher numbers indicate that 1.3 rapes are occurring every minute. These numbers reflect only the forcible rapes or those in which the use of force or threat of force was present and involved sexual penetration, and not other types of sexual assault. Rapes that occurred to female children and adolescents under the age of 18 – which comprised more than six out of ten of all rapes occurring over women's lifetimes – were not included, nor were any rapes of boys or men. The same study indicated that 84% of rape victims do not report.

The traumatic and devastating impacts of rape and sexual assault include sexually transmitted diseases, and long-term physical, mental and emotional health problems for many women (CDC, 2010). Rape in America also revealed that women who have been raped are 13 times more likely to attempt suicide, 3.5 times more likely to experience a major depressive episode, and 6.2 times more likely to experience post-traumatic stress. Furthermore, victims of rape experiencing post-traumatic stress are 26 times more likely to have two or more serious drug abuse problems.

Need: To address these traumatic and devastating consequences of rape, funds are requested in this proposal for Evening Telephone Crisis Advocates, a Counseling Services Manager and a Client Services Advocate who are needed to continue twenty-four hour crisis intervention, emergency, and other support/referral services in the sexual assault program for victims in the Monroe metropolitan area and in the rural parishes.

2. Describe gap in community resources and how the gap was identified. Explain what need is created by this gap in services/programs.
The gap in services for victims of sexual assault was identified many years back when the Wellspring, formerly the YWCA of Northeast Louisiana, stood ready to address the growing issue of sexual assault. In 1980, the agency launched services for these victims, including the crisis lines now funded through this grant. Continued outreach to victims remains critical, and while the needs continue to increase, the VAWA funded crisis line is a critical link to connecting victims with the resources they so desperately need in our service area.

B. GOALS

GOALS: The primary mission of all projects is to have a positive impact on the victims, not just to accumulate statistics on how many are served. Based on the problem identified, BRIEFLY state what the project hopes to accomplish. Do this by providing a clear statement of the effect this project will have on the problem.

The Wellspring will respond to the immediate needs of sexual assault victims and assist them in resolving the trauma of sexual assault through 24-hour telephone crisis intervention, safety planning, as a liaison to the community's SART program, and referral to resources and programs best suited to their needs.

C. OBJECTIVES

OBJECTIVES: Provide at least TWO (2) measurable objectives for EACH goal. Objectives need to be measurable, observable aspects of the program. Identify who, what will change and by how much. Use absolute numbers, not percentages and be sure to include a baseline number.

Because of the anonymity of the callers and the fact that they may call one time, and then not ever call again, it is difficult to assess long term outcomes for individuals. The action steps taken during the calls themselves are indicators of outcome for each call.

Objective 1: To maintain twenty-four hour crisis intervention services and respond to a minimum of 400 crisis calls from victims of rape and sexual assault. Of the 400 crisis calls answered, 200 victims will seek additional services to further address trauma resolution as indicated by number of victims served in VAWA Quarterly Reports.

Objective 2: To improve the delivery of victims services area-wide by increasing awareness of rape and sexual assault services including telephone crisis counseling, individual and group sessions, and victim advocacy for 20 health care providers or other professionals. Of professionals reached, 15 will agree to maintain agency referral information and direct appropriate victims to needed services.

D. ACTIVITIES / METHODS

List the specific activities and/or services to be provided that will accomplish the objectives. Must include a timetable for achieving the various components of your project. Timetable must cover entire grant period. This must relate back to the Goals and Objectives. If this is a training project, omit this page and complete D-2 Training Programs.

This is a continuation grant and services are ongoing. There will be no interruption in crisis line activity and services will run throughout the entire grant period.

Objective 1: Crisis intervention will be provided 24 hours a day for the twelve month grant period. Crisis intervention methods include these steps: safety and security, ventilation and validation, assessing resources, education, prediction and preparation, and follow up when appropriate. Telephone crisis staff will receive ongoing training in the areas of crisis intervention, referral to law enforcement and other agencies and reporting/data collection.

Objective 2: Provide sexual assault educational information and referral materials for the 12 parishes served in Northeast Louisiana.

H. PRIOR RESULTS (For Continuation Projects Only)

- 1 Based on the objectives of the previous application, what were the measurable outcomes? (Refer to the previous project's performance stated in the quarterly progress reports and other additional information)
- VAWA Quarterly reports for the previous grant period (October 1, 2009 -- September 30, 2010) reveal that the Wellspring served 221 primary victims of sexual assault and 113 secondary victims of sexual assault. Data used is from our previous grant period as we are still in the first quarter of the current grant period, so data is not yet available. Objectives from the previous application and progress on these objectives are as follows:
Goal 1- Objective 1: Continue to provide twenty-four hour crisis intervention in rape and sexual assault situations for approximately 1,200 callers in Ouachita parish and in the eleven surrounding parishes. RESULTS: The Wellspring has responded to 273 crisis calls during the first three quarters of the contract.
Goal 1-Objective 2: Participate in the Sexual Assault Resource Team of Ouachita Parish by directing victims to the hospital for exams, and contacting and dispatching the SART advocates to the hospital to accompany victims during their exam. RESULTS: This objective has been met. The Wellspring continues to participate in the community's SART program and has been instrumental in the restoration of the program as a community based initiative.
Goal 2- Objective 1: Continue to provide immediate crisis intervention for approximately 100 sexual assault victims. RESULTS: The Wellspring has exceeded this objective by serving 221 primary and 113 secondary victims of sexual assault.
Goal 2- Objective 2: Increase awareness of rape and sexual assault services including telephone crisis counseling, individual and group sessions and victim advocacy for approximately 10 area health-care providers or other professionals. RESULTS: The Wellspring has exceeded this objective by providing 41 informational sessions to 302 professionals.
- 2 Did the project work as expected? Explain.
- The project works as expected and the Wellspring met or exceeded three of the four objectives set forth in the previous application. However, when analyzing the numbers of sexual assault crisis calls received we discovered that our current numbers were not in line with those we had received over the previous year. In researching the discrepancy we discovered that our projection was based on a number that had been miscalculated, and so the objective was both unrealistic and unattainable. This is believed to have occurred during a period of staff turnover when the types of calls were tallied incorrectly. With regard to the crisis line's participation in our area's SART, the community's original SART was hospital based and due to lack of human and financial resources, the hospital was not able to sustain the program. However, our community has formed a committee with the Wellspring as one of its leaders, to re-engage the SART as a community based initiative. The SART should be once again operational in Fall, 2010 with the Wellspring Crisis Lines remaining a critical component in the project.

- 3 Have the original goals and objectives been revised? Yes No
- If Yes, explain what changes will be made in the continuation of this project and why?

The crisis line call number will be reduced to more realistically reflect the numbers of calls anticipated and received.

I. EVALUATION AND DISSEMINATION OF REPORTING

A COPY OF YOUR EVALUATION FORMS USED FOR THIS PROJECT MUST BE INCLUDED.

1. From who will the data be collected – what is the source?

The Counseling Services Manager, Client Advocates, and Telephone Crisis Advocates will collect data from sexual assault callers.

2. When will the data be collected?

5. Following evaluation, who and how will updating or revising of the project's strategy be accomplished?

The Wellspring Leadership Team, which is made up of the directors of each of the agency's programs, meets on a monthly basis. The agency's strategic plan, as well as data based on program statistics and client and staff feedback, are evaluated on a quarterly basis. Program processes and the flow of services are discussed at each meeting, with recommendations made when and if program strategies are found to be ineffective or inefficient. Client and staff feedback and satisfaction are strongly considered when examining program effectiveness and revising strategies. When changes are necessary, they are made with input from appropriate direct service staff members and methodically implemented.

6. Name the recipients who will receive the project's results and the schedule of reporting (i.e. monthly, quarterly, yearly). Recipients MUST state the Louisiana Commission on Law Enforcement will receive Quarterly Progress Reports and expenditure reports quarterly/monthly as specified at award time. Recipients should also include, if applicable, board of directors, applicant agency (if different from implementing agency), courts with jurisdiction, etc.

The Louisiana Commission on Law Enforcement (LCLE) will receive Quarterly Progress Reports and expenditure reports on a monthly basis, per contractual agreement. An Annual Progress Report will also be submitted to LCLE upon completion of the project. The Wellspring Alliance for Families Board of Directors receives quarterly reports and a written agency balanced scorecard which indicates project results. All Wellspring stakeholders including the membership, donors, etc. receive an annual report which outlines programs outputs and outcomes as well as general activities. It is also made available to the general public via website. The Governor's Office of Women's Services, the Department of Justice/Office on Violence Against Women, the Louisiana Foundation Against Sexual Assault, United Way of NELA and other funders require monthly, quarterly, and/or annual written reports.

J. CONTINUATION

Yes No Do you plan to continue this project at the conclusion of federal support? Since continued STOP funding is limited and not assured, alternate funding sources should be sought. Name the sources and potential sources of continued funding for this project at the conclusion of Federal support.

The Sexual Assault Program including the crisis lines will continue to be funded through Louisiana Foundation Against Sexual Assault, VOCA Funding, SASP Funding, United Way of Northeast Louisiana, and Wellspring special events and memberships. Grant dollars from the Department of Justice/Office on Violence Against Women also support the work of the Sexual Assault Program. In addition, new sources of local, state and federal funding are continuously researched and proposals are submitted on a regular basis.

To broaden the program funding base and to allow clients an opportunity to take more responsibility for their own growth, a sliding fee scale using annual household income is in place for on-going, non-crisis individual and family therapy. No one will be denied services based on their inability to pay. Crisis intervention services such as the 24-hour crisis line, the first three counseling sessions, the support/therapy group and safe shelter, if needed, will be provided at no charge.

Briefly describe the process used to consult, coordinate, and collaborate with each agency. Attach original current letters of support and/or written cooperative agreements indicating awareness and cooperation/role with this project.

The Wellspring networks with a large number of service providers as well as numerous other community groups and agencies to provide services to victims of crime. The Wellspring has a close working relationship with law enforcement agencies in Northeast Louisiana. Many of the agency's clients are referred for services by law enforcement or the district attorney's office. Clients are encouraged to report the assault to the appropriate law enforcement agency at the time of initial contact. The Wellspring collaborates with law enforcement agencies to provide training to the police academy and to officers throughout the region. An understanding of services offered makes appropriate referrals more likely. The Wellspring makes agency brochures and business cards available to area patrol officers upon request. A coordinated community response to domestic violence, dating violence, sexual assault and stalking has been strengthened over the past few years by the development of the Family Justice Center and the SAFER Rural Task Force. See attached MOUs. The agency is also an integral part of the community's Sexual Assault Resource Team (SART).
